Profile

I am an aspiring Junior Web Developer transitioning from a background in technical support and brand ambassadorship. With a solid foundation in HTML, CSS, JavaScript, and ReactJS, and hands-on experience from an internship at CodSoft, I aim to bring fresh perspectives and innovative solutions to web and software development projects. Currently enhancing my skills at ZAIO Coding School and holding a Diploma in Information Technology from the University of South Africa, I am dedicated to continuous learning and contributing effectively to dynamic tech environments.

Education

ZAIO Coding School (2023-2024)

- Proficiency in front-end and back-end web development, with a focus on ReactJS, NodeJS, MySQL, Firebase, and Bootstrap.
- Collaborated with a diverse team on real-world web development projects.

University of South Africa (UNISA)

- **Advanced Diploma in Information Resources Management (IRM) (2024 – 2025)**
 - I am currently studying part-time for advanced diploma Information Resource Management.
- **Diploma in Information Technology (2019 - 2022)**
 - Diploma completed.

Litshovhu Secondary School (2012)

- Matric Certificate

Experience

Junior Web Developer Intern – CodSoft (November 2023 - December 2023)

- Project 01: GetruBenny Restaurant
 - Designed and launched an engaging landing page using HTML and CSS, improving user experience and site aesthetics.
- Project 02: React App (rendy-quiz-app.web.app)

- Developed an interactive online quiz platform with ReactJS, incorporating user authentication and ensuring mobile responsiveness.
- Project 03: React App (ecommerce-shopping-dcec2.web.app)
 - Implemented comprehensive e-commerce functionalities using React, Node.js, and Firebase, enhancing the user shopping experience.

Brand Ambassador - The Virtual Institute of Technology (2021 – 2023)

- Boosted brand awareness by 30% through targeted event marketing and social media campaigns.
- Organized the Work Base Exposure initiative, providing practical industry exposure to over 50 students in Vhembe district TVET college, significantly enhancing their employability.

Field Technician - Thabure Towerco (2020 - Present)

- Diagnosed and resolved technical issues with Cambium network radios and Layer 2 link networks, improving system reliability by 20%.
- Performed preventive maintenance and annual service visits, reducing equipment malfunctions by 15%.
- As Team leader I met the deadline for installation and testing for the client.
- Improved customer satisfaction by 25% by addressing technical and connectivity issues promptly and effectively on the SA connect project in Vhembe district.
- Collaborated with technical teams to monitor over 50 Network Operations Centre subscribers, ensuring smooth operations and prompt issue resolution on the government facilities.

Web Projects

Front-end Web Developer | Kiddies Planet Daycare Landing Page Clone

- Created a responsive daycare webpage using HTML and CSS, optimizing for various screen sizes.
- Technologies Used: HTML, CSS, Media Queries
- Link: <https://kiddiesplanetdaycare.netlify.app/>

Front-end Web Developer | Netflix Landing Page Clone

- Recreated the Netflix South Africa landing page using HTML and CSS, focusing on responsive design and user experience.
- Technologies Used: HTML, CSS, Media Queries, Flexbox, Grid Layout
- Link: <https://movie-streaming-clone-zaio.netlify.app/>

Full Stack Web Developer | E-Commerce Project

- Built a dynamic e-commerce website with React.js, Node.js, and Firebase for real-time data storage and user authentication.
- Technologies Used: React.js, Node.js, Firebase
- Link: <https://ecommerce-shopping-dcec2.web.app/home>

Front-end Web Developer | Google Keep Clone

- Developed a note-taking application using React.js, featuring creation, editing, and deletion of notes.
- Technologies Used: React.js, React Hooks
- Link: [Google Keep \(google-kepp-clone.netlify.app\)](https://google-kepp-clone.netlify.app)
